

Dear competitors of CS Giubiasco 2021,

Together with the organizer, we look forward to your participation in the Concours in Giubiasco from September 18th to 19th, 2021.

The current federal measures require a special protection concept, which is published on the organizer's website.

In cooperation with Daniela Fluri from the show office, we will be happy to assist you with our accounting system. Some of you already know it from past events and don't need to do anything. We received your e-mail address via the approved data import from Rosson, the tournament software of the SVPS. A profile has thus been created for you in our software. So far, we have saved the following data for you:

Last name, first name, license number, date of birth (in your "Profile") and your previously named horses (in the "Horses" section).

You can enter all other details yourself on the following web application: app.eventclearing.lu. But there is no obligation to do so. We only need your bank account or your SPVS payment reference if you have ridden successfully, i.e. are classified so that we can credit you with the prize money ([you can find an explanation here](#)). The show office has limited access to your data and is always happy if you give your mobile phone number. This means that you can be reached if there is a need during the tournament.

You can also create a family profile for your children, to which you can assign your children using the Swiss license number. You can find explanations for the family and employer profile here.

We are happy to answer any questions you may have. You can reach Matthias Lienhop by email: matthias@eventclearing.lu.

Have fun and success in Giubiasco

Fabio Crotta, Daniela Fluri and Matthias Lienhop
